

Consent form master students:

Instructions:

First, thank you for participating. Do not participate if you are under 18 years old or if you are colorblind. Each person can only participate once. Do not refresh page during the experiment, your progress will be lost. The time to complete some questions is measured, so please complete them without interruptions. Please use a mouse and do not complete it on a phone. It works the best in Chrome, and otherwise please use Edge or Safari.

Informed Consent:

1. Introduction

You have been invited to take part in research project: Comparing models and connected visualization of event log data from the visualization/visual analytics and process mining domains. because you are studying at ... and followed a process mining course.

Participation in this research project is voluntary: the decision to take part is up to you.

Before you decide to participate we would like to ask you to read the following information, so that you know what the research project is about, what we expect from you and how we deal with processing your personal data. Based on this information you can indicate via the consent declaration whether you consent to take part in this research project and the processing of your personal data.

You may of course always contact the researcher via ..., if you have any questions, or you can discuss this information with people you know.

2. Purpose of the research

This research project will be managed by The purpose of this research project is to compare process models with connected visualizations and semantics to answer our possible hypotheses about which model with connected visualization works better in terms of correctness, speed and qualitative measures such as usability.

3. What will taking part in the research project involve?

You will be taking part in a research project in which we will gather information by:

Asking you to fill in questions about different visualizations

Recording your interactions with the visualizations

Recording the time to give an answer to the questions

This study will be completely anonymous, and the data obtained from the study will not be traceable to you. For your participation in this research project you will be compensated with a ... giftcard of 6 euros given that you do a serious attempt to fill in the test, finish the test, and be willing to provide your email address. Your email address will only be used to send you the ... giftcard. Your email address will be asked at the end of the test. It is optional to fill it in, but if you do not fill it in you will not receive a compensation.

4. Potential risks and inconveniences

Your participation in this research project does not involve any physical, legal or economic risks. You do not have to answer questions which you do not wish to answer. Your participation is voluntary. This means that you may end your participation at any moment you choose by letting the researcher know this. You do not have to explain why you decided to end your participation in the research project. Ending your participation will have no disadvantageous consequences for you.

If you decide to end your participation during the research, the data which you already provided up to the moment of withdrawal of your consent will be used in the research. Do

you wish to end the research, or do you have any questions and/or complaints? Then please contact the researcher via

5. Confidentiality of data

The raw and processed research data will be retained for a period of 5 years. Ultimately after expiration of this time period the data will be either deleted or anonymized so that it can no longer be connected to an individual person. The research data will, if necessary (e.g. for a check on scientific integrity) and only in anonymous form be made available to persons outside the research group.

This research project was assessed and approved on ... by the ethical review committee of

Consent form for participation by an adult

By signing this consent form I acknowledge the following:

1. I am sufficiently informed about the research project through this information sheet. I have read the information sheet and have had the opportunity to ask questions. These questions have been answered satisfactorily.
2. I take part in this research project voluntarily. There is no explicit or implicit pressure for me to take part in this research project. It is clear to me that I can end participation in this research project at any moment, without giving any reason. I do not have to answer a question if I do not wish to do so.

I agree
